

SPOTLIGHTS YOUR PRODUCT

High Product Protection and Maximum Transparency

Multi SV Skin

There are no limits for our Skin lidding film: the film encloses even difficult and delicate products like a second skin.

At the point of sale, Skin packaging differentiates itself by transparently presenting the product in its natural structure, allowing consumers to consciously perceive freshness and quality.

Thanks to the outstanding puncture resistance, highest product protection can be achieved even with thinner materials. In combination with optimum sealing behavior, our films ensure maximum packaging integrity.

Due to the extended shelf life compared to other packaging concepts, the product quality is preserved for a long time. In terms of sustainability, vacuum Skin packaging convinces with a reduction in food waste as a significant effect when balancing the environmental impact.

Added Value

EXTENDED SHELF LIFE

Reduction of food waste and improved product quality through vacuum

HIGH PACKAGING SAFETY

Puncture resistance with optimum sealing behavior ensure packaging integrity

OPTIMAL PRESENTATION AT THE POS

Clear view of the product thanks to maximum transparency

SUDOPACK

Presentation at the point of sale

PRODUCT APPLICATIONS

PACKAGING TECHNOLOGY

Lidding films for process-reliable processability on all thermoforming and trayskin lines

MULTI SV SKIN IN DETAIL

Thickness	75 µ, 100 µ, 125 µ, 150 µ
Sealable against	PE, APET, PP
Barrier	High barrier against water vapour and oxygen

Advantages

- ✓ Skin films adapt perfectly to any product contours, fix the product in place and, in conjunction with outstanding sealing properties, prevent any leakage of product liquid.
- ✓ The product can be presented hanging, vertical or horizontal.
- ✓ Thanks to maximum product protection, the innovative packaging solution is also ideal for e-commerce.
- ✓ For an effective appearance at the POS, our Skin films are also printable.
- ✓ We enable an optimized packaging experience for the consumer through clean, consistent and easy opening behavior.
- ✓ SÜDPACK Skin films score with the best possible process reliability on your machines as well as high output.
- ✓ As a one-stop-shop supplier, we offer a complete portfolio of bottom webs specifically designed to meet the requirements of Skin top webs.
